

Jawad FAROOQ

Data Engineer

✉ butt65615@gmail.com ☎ 0355644558 \03354427428 📍 Muzaffarabad AJ&K 🌐 Jawad-Farooq

SUMMARY

Data Engineer with 1+ year of experience in database development, ETL, and database management, skilled in SQL Server, query optimization, data modeling, performance tuning, and ensuring data quality, security, and efficient data processing. Experienced in **data warehousing concepts**, working with **ETL tools**, and familiar with **Python programming** for data engineering tasks. Knowledgeable in **data pipelines, workflow automation, and real-time data processing**, with a strong understanding of end-to-end **data engineering practices**

PROFESSIONAL EXPERIENCE

Data Engineer. Full-time

CareCloud

01/2025 – Present
Rawalpindi, Pakistan

Database Developer & ETL Specialist | SQL Server

Worked on designing, developing, and optimizing ETL processes for SQL Server databases. Created complex SQL queries, stored procedures, and views to support reporting and analytics. Ensured data quality, integrity, and performance across multiple data sources. Collaborated with teams to implement efficient and scalable data solutions.

Android Developer • Full-time

JanBark Technology

03/2023 – 12/2024
Rawalpindi, Pakistan

Developed and maintained Android applications using Kotlin, including Daily Planner App, WiFi Printer App, Translator App, My Diary App, and various other apps, implementing features, fixing bugs, and optimizing performance for a smooth user experience.

PROJECTS

Data Warehousing & ETL – Precision BI

10/2025 – continue

Monitored and managed daily ETL loads, ensuring data was extracted accurately from source systems. Worked with SQL Server to create, optimize, and troubleshoot ETL procedures and processes. Validated data quality and integrity, resolving discrepancies and maintaining accurate reporting. Collaborated with development teams to implement efficient, source-to-target data workflows.

EDUCATION

Bachelor's in Computer Science

University of AJ&K

12/2018 – 12/2022
Muzaffarabad, AJ&K

Completed a B.Sc. in Computer Science, focusing on software development, database management, and application design. Final year project: Developed an **Online Food Ordering App**, implementing features for menu browsing, order placement, and user management.

SKILLS

SQL (Structured Query Language), Data Modeling & Schema Design, ETL (Extract), Performance Tuning & Optimization, Database Management Systems (DBMS), Load Processes, Data Warehousing Concepts, Kotlin, SQL Server, Android Development, Database Management & Administration.

LANGUAGES

Sql, Kotlin, Python, Java, c++
